

CALL FOR APPLICATIONS FOR THE AWARD OF RESEARCH FELLOWSHIPS
Regulation on Research Fellowships pursuant to Italian Law no. 240/2010
Politecnico di Bari, issued by Rectoral Decree no. 252 of 05/07/2016

Rectoral Decree no. 522/2021

Purpose

Applications are invited for the selection running at: Department of Civil, Environmental, Territory, Construction and Chemistry Engineering of the Politecnico di Bari for the award of:

-n. 1 professional grant research fellowship, for the execution of research activities within the project entitled: *“Earth Observation 3D Change Detection: exploitation of multi-temporal and multi-modal satellite data to measure tridimensional landscape changes using deep learning approaches”*, according to the annexed Activity Programme:

“The Earth's landscape is continuously changing under the effects of natural processes and human activities. The capacity to timely and accurately detect, measure, monitor, and model landscape changes is becoming more and more important for governments and citizens. Obtaining needed information allows us to better plan and manage how to act on these changes in the future and to monitor the progression toward the Sustainable Developments Goals defined by the UN 2030 Agenda. This project ambitions to develop new methodologies to routinely detect, measure and monitor landscape changes in three dimensions (3D), exploiting Earth Observation (EO) and geospatial big data. The overall goal for this Post Doc fellowship is to contribute within the project to develop novel 3D change detection methods to exploit the fusion of multispectral and radar high-resolution satellite imagery for near real-time monitoring of different type of landscape change phenomena (i.e. urbanization, forest loss, stockpiles, natural hazards monitoring). The leading idea is to change the paradigm from analyzing just few images or images acquired by the same sensor to a new holistic approach that can aggregate the information coming from several sensors and combining different processing techniques”.

The call for applications for the research fellowship issued pursuant to the University Regulation issued by Rectoral Decree (D.R.) no. 252/2016.

The activities shall be carried out under the supervision of a tutor, Scientific Responsible Prof. Andrea Nascetti in a non-subordinate relationship with no set working hours.

The main place of work will be: Department of Civil, Environmental, Territory, Construction and Chemistry Engineering of the Politecnico di Bari, VIA ORABONA,4 , BARI, ITALY

Requirements for candidacy

The selection is open to candidates in possession of the following qualification:

- Degree in Engineering, Physics, Mathematics or Equivalent.
- Previous experience in GIS and remote sensing technologies and a solid background in data analysis using machine learning algorithms.

The following qualifications are desired:

- Strong knowledge in optical and SAR satellite image processing
- Previous experience in machine learning and deep learning algorithm

Comparative assessment of the candidates and the Evaluation Board

The candidates will be assessed comparatively by a Commission appointed by a Rectoral Decree, and formed by three professors of Politecnico di Bari.

The selection procedure focuses on the examination of the selection criteria laid down in advance by the Commission, the candidates' scientific-professional curriculum and the scientific work and publications resulting from the documents enclosed with the application as well as an interview, aiming to verify the suitability of the candidate for carrying out the research programme.

During the interview, the Commission will also verify the candidates' knowledge of the foreign language(s) required in the announcement on relevant sectoral topics.

The oral exam may be held also by using Skype. These applicants have to prove their identity to Commission by showing the colour ID document already attached in the application. Candidates will also have to produce, together with the documentation pursuant to art. 3, Annex C duly filled.

Notice about date and location where the oral examination will be published on the online register praetorian (Albo pretorio) of the Politecnico of Bari.

To be admitted for interview, the candidates must show a valid ID document.

At the end of the selection procedure, the Board will draw up a list of candidates with relative scores, and the final ranking of the selection will be published on Politecnico's online register praetorian by a Rectoral Decree.

If two candidates receive the same scores, preference will be given to the younger candidate. The successful candidate has to send to Politecnico di Bari, within 15 days starting from the day after of final ranking publication the following documents:

- a) declaration of acceptance of the research fellowship, by filling up the form available on www.poliba.it/Ricerca/Assegni di Ricerca;
- b) photocopy of ID documents

c) photocopy of Italian fiscal code (if available).

Duration and amount of the contract

The contract has a duration of 12 months and may be renewed and/or extended in the terms laid down in the University Regulation concerning research fellowships, as issued by D.R. no. 252/2016.

The gross amount of the research fellowship contract is € 19.367,00 (professional) per annum. The amount is exempt of withholding tax and includes all statutory social security charges the Research Fellow is subject to.

The amount will be paid in deferred monthly payments.
